PROFILE

A highly skilled, proficient and innovative Software Engineer with a track record in developing and maintaining robust and scalable software systems. With a strong foundation in computer science and a passion for solving complex technical challenges, I excel in designing and implementing efficient and reliable software solutions. I am dedicated to staying current with emerging technologies and best practices, ensuring that the systems I create are always cutting-edge. I am a proactive problem solver, an efficient communicator, and a collaborative team player.

WORK EXPERIENCE

Software Developer

Prudential Bank Ltd.

10/2023 - Current

- Expanded client offerings by staying current with industry trends, learning new programming languages, frameworks, and technologies as needed.
- Mentored junior developers to improve their technical skills, fostering a culture of continuous learning within the team.
